MARCH 26—27
2019 IN LEIPZIG

IV. Conference on Monitoring & Process Control of Anaerobic Digestion Plants

TOPICS OF THE CONFERENCE

Modelling & simulation for process control

AD*: Control of coupled processes and demand-oriented production

Information & communication technology (ICT) and digitalization within AD processes

Laboratory measurements:
Reliability & validity

Batch tests/ring trials

Practical experience of process monitoring and control

Microbiological analysis in monitoring & process control of AD plants

Measurement technology:
Sensor development & application

Plant efficiency: Monitoring & control of the plant efficiency

Monitoring for safety & emission reduction purposes

SPONSORSHIP

Participate as Sponsor & Exhibitor

SPECIAL EVENTS

Poster presentation award

Exhibition featuring companies' products and services
